(A) Conservation of energy-

Your Company continues to be conscious of the environmental impact of our business and continues to improve on its fuel efficiency through various initiatives in this area.

Energy conservation is a very important part of energy planning and its management. This not only saves energy resources for future but also avoids wasteful utilization of energy. Energy conservation initiatives provide solution to the energy crisis, environmental degradation and pollution.

In the short run, the only solution to the growing energy deficit is to facilitate good energy saving measures through conservation of power, fuel and water. As industries are the major gutters/ consumers of these resources, the onus should lie on the industrial sector to limit & minimize its demand for energy. The need of the hour is to conserve and preserve the energy resources for future of the mankind.

Steps taken for conservation of energy

Installation of Solar Plant in the Company to save the Electricity. Replaced the conventional and HPSV/HPMP lamps with the LED lamps.

MANAGEMENT DISCUSSION & ANALYSIS

INDIAN IT & ITES INDUSTRY

India's IT & ITES industry grew to US\$ 181 billion in 2018-19. Exports from the industry increased to US\$ 137 billion in FY19 while domestic revenues (including hardware) advanced to US\$ 44 billion.

Revenue from digital segment is expected to comprise 38 per cent of the forecasted US\$ 350 billion industry revenue by 2025.

India is the topmost offshoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India.

Export revenue of the Indian IT industry is expected to grow 7-9 per cent year-on-year to US\$ 135-137 billion in FY19. The industry is expected to grow to US\$ 350 billion by 2025 and BPM is expected to account for US\$ 50-55 billion out of the total revenue.

IT ENGINEERING AND EXPORTS SERVICES OVERVIEW

India's exports rose to a five-month high of 11 per cent in March 2019 on account of higher growth mainly in Engineering, pharma, and chemicals sectors, marking the outbound shipments at USD 331 billion for FY 2018-19

During the full fiscal, the Engineering sector recorded healthy growth of 6.36 per cent.

Data showed that oil imports in April-March 2018-19 grew by 29.27 per cent to USD 140.47 billion, while non-oil imports were up by 2.82 per cent to USD 366.97 billion during that fiscal.

Commenting on the data, Trade Promotion Council Of India (TPCI) Chairman Mohit Singla said that despite global challenges, exports registered best ever performance.

Federation of Indian Export Organisations (FIEO) President Ganesh Kumar Gupta said exports grew despite major challenges including protectionism, tough global conditions and constraints on the domestic front.

The total exports (goods and services combined) have been growing since 2016-17 and have surpassed the USD 500 billion mark in 2018-19 for the first time. The overall estimated exports (merchandise and services) have reached a new peak of USD 535.4 billion this year, attaining a growth of 7.97 per cent.

Civil Engineering Market size is anticipated to surpass USD 12.5 trillion by 2025 according to a new research report by Global Market Insights, Inc.

The global civil engineering market size is projected to be valued at USD 12.08 trillion by 2025 at a 5.6% CAGR during the forecast period, according to a new report by Grand View Research, Inc. Rapid expansion of the middle-income population group, is driving the civil engineering market, particularly in India and China. Moreover, technological advancements in various civil engineering procedures, along with advent of various software and solutions, has favored the market to a great extent.

Large investments by governments to improve infrastructure is expected to boost the global civil engineering market by 2025. Developing countries are offering financial benefits to encourage regional development, both in terms of investment and infrastructural development. Rapidly increasing global population is expected to generate significant demand for residential construction and infrastructure.

Construction formed the largest service segment in North America. The segment is projected to reach USD 661.0 billion by 2025, exhibiting a CAGR of 4.4% over the forecast period

Asia Pacific is the largest civil engineering market and held a 33.1% share in 2017. Rising disposable income and rapid expansion of the middle-income population group, particularly in China and India, is driving the APAC market.

Opportunities & Threats:

Opportunity

The Civil team has performed exceptionally well in the FY 2018-19 compared to the last previous year with respect to revenues and productivity.

The Workflow in Structural Steel Division is moderate in the first few months of the next FY 2019-20. However the Company is adding more new clients to increase the overall sales.

Major US clients visited our Indian Offices and appreciated our skill set, processes and the documentation we maintain while executing the projects.

The MES Market has improved performance in the FY 2018-19 when compared to FY 2017-18. Major Tier 1 mechanical clients are showing interest in our services. The Onsite requirements from European clients has helped to increase the revenue of MES team in FY 2018-19

With widening of our Mechanical Engineering Services from 2D, 3D drawings to Design concepts and Simulation services, Company could get major orders from Tier-1 Auto companies in Europe. The order sizes started increasing and Company hopes to double its sales during the next FY 2019-20. In FY 2019-20, Mechanical Engineering Services is going to be the Star Performer.

The key competencies in order to deliver the value creation for our partners is Operational & Commercial Excellence. We strive for satisfactory execution of the projects with higher productivity which would increase the profitability levels. We strive for leaner and more efficient operations and supporting functions to obtain best in class capabilities and improve service offerings to our customers. Adding new segments in product design, Auto Interiors apart from growing in SPM's should enable rapid growth in Mechanical Engineering Services revenues in coming years.

To cater better services and build better relations, our Senior Vice President of Mechanical Engineering Services has been relocated in Germany on work permit basis and a Wholly Owned GmbH Subsidiary Company is being established in Germany. This will enable ease of deploying more resources at client locations in Europe to improve delivery, Client satisfaction and in turn more volume of business for our Offshore Services

Company's operations in IT division are going at low pace and only current clients are being serviced.

Threats

Following are some of the major risks any business faces and tries to address the same through corporate actions:

Financial Risks - includes foreign currency rate fluctuations, liquidity and leverage.

Foreign Exchange Risk:

Rupee has been predominantly driven by external factors:

- 1) US rate hike cycles have in general been disruptive for EM assets. Last year we saw four rate hikes. The Federal Reserve raised rates as US economy rebounded sharply and inflation and wage growth showed signs of picking up. Labor markets in the US were the strongest in about half a century. We saw huge outflows from Debt and equity especially in September and October last year.
- 2) Our economy witnessed a negative terms of trade shock as Crude prices broke above the usd 70 per barrel mark, putting pressure on our current account. However, as crude prices eased on concerns of a supply glut and fears of a slowdown in global growth, Rupee too recovered rapidly from lows.

- 3) US-China trade tensions cast a shadow over global growth. The US imposed tariffs on USD 250bn worth of Chinese imports and the Chinese government too reciprocated. . The People's Bank of China let the Yuan devalue to counter the effects of US tariffs. Depreciation of the Yuan from 6.20 to 6.90 against the US Dollar caused other Asian and EM currencies to weaken as well.
- 4) During a US rate hike cycle economies with significant USD denominated debt and less reserve tend to be the most affected. This time around the threat of contagion from crisis in Turkey threatened to spill over to other EMs as well.
- 5) Domestic factors such as the stress in the NBFC sector, showdown between the government and the central bank resulting eventually in RBI governor's resignation and BJP's poor performance in state elections also weighed on the Rupee for a brief while. However, global factors dominated for most part of the year.

Performance of Rupee in 2018-19 vs Dollar and other currencies?

Rupee has been a high beta currency, underperforming its peers in times of USD strength and outperforming in times of USD weakness. At one point of time, Rupee was one of the worst performing EM currencies behind the Argentine Peso and the Turkish Lira, depreciating almost 15% from highs. The Rupee has not done too poorly against the Euro and Sterling as both these currencies have been weak due to overall USD strength and also their own idiosyncratic factors. In the Financial year 2018-19, the USDINR pair traded in a range of 63.24- 74.48.

Legal and Statutory Risks -includes contractual liabilities & statutory compliances.

Competition Risks - New competitors may enter the markets in which your company operates.

Significant Financial Ratios:

- Debtors Turnover Ratio : 3.86
- Interest Coverage Ratio: 46.82
- Current Ratio : 3.79
- Debt Equity Ratio: 0.05
- Operating Profit Margin (%) : 23%
- Net Profit Margin (%): 16%
- Change in Return on Net Worth : 75%

The high change in Net worth is due to the Increase in the Net profit of the Company in FY 2018-19 by 115% compared to FY 2017-18

Nomination, Remuneration and Board Evaluation Policy:

The Company has formulated a Nomination, Remuneration and Board Evaluation Policy as per the provisions of Section 178 of Companies Act, 2013 and Regulation 19 of SEBI (LODR) Regulations, 2015 which, inter- alia, lays down the criteria for identifying the persons who are qualified to be appointed as Directors and such persons who may be appointed as senior management personnel of the Company and lays down the criteria for determining the remuneration of the Directors, key managerial personnel(KMP) and other employees.

Nomination, Remuneration and Board Evaluation Policy provides for the following attributes for Appointment and removal of Director, KMP and senior management.

Appointment Criteria and Qualification:

The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as director in terms of diversity policy of the Board and recommend to the board his / her appointment.

For the appointment of KMP (other than managing/ whole-time director) or senior management, a person should possess adequate qualification, expertise and experience for the position he/she is considered for the appointment. Further, for administrative convenience, as regards the appointment of KMP (other than managing/whole time director) or senior management, the managing director is authorized to identify and appoint a suitable person for such position. However, if the need be, the managing director may consult the committee/board for further directions/ guidance.

Term:

The term of the directors including managing/ whole time director / independent director shall be governed as per the provisions of the Companies Act, 2013 and Rules made thereunder and SEBI (LODR) Regulations, 2015, as amended from time to time; whereas, the term of the KMP (other than the managing/whole time director) and senior management shall be governed by the prevailing HR policies of the company.

Evaluation:

- The Committee shall carry out evaluation of performance of every Director.
- The Committee shall identify evaluation criteria which will evaluate Directors based on knowledge to perform the role, time and level of participation, performance of duties, level of oversight, professional conduct and independence. The appointment/re-appointment/ continuation of directors on the board shall be subject to the outcome of the yearly evaluation process.

Removal:

- Due to reasons for any disqualification mentioned in the Companies Act, 2013 or under any other applicable act, rules and regulations there under and / or for any disciplinary reasons and subject to such applicable acts, rules and regulations and the Company's prevailing HR policies, the Committee may recommend, to the Board, with reasons recorded in writing, removal of a director, KMP or senior management.

Remuneration of Managing/ Whole-Time Director, KMP and Senior Management:

- The remuneration / compensation / commission, etc., as the case may be, to the managing / whole time director will be determined by the Committee and recommended to the Board for approval. The remuneration / compensation / commission, etc., as the case may be, shall be subject to the prior /post approval of the shareholders of the Company and central government, wherever required and shall be in accordance with the provisions of the Act and Rules made thereunder. Further, the managing director of the Company is authorized to decide the remuneration of KMP (other than Managing/ Whole Time Director) and Senior Management, and which shall be decided by the Managing Director based on the standard market practice and prevailing HR policies of the Company.

Remuneration to Non-executive / Independent Director:

- The remuneration / commission / sitting fees, as the case may be, to the Non-Executive / Independent Director, shall be in accordance with the provisions of the Companies Act, 2013 and the Rules made thereunder for the time being in force or as may be decided by the committee / board / shareholders.
- An Independent Director shall not be entitled to any stock option of the company unless otherwise permitted in terms of the Companies Act, 2013 and SEBI (LODR) Regulations, 2015, as amended from time to time.

Details of the Evaluation Process

- In terms of the Nomination, Remuneration and Board Evaluation Policy and the applicable provisions of the Companies Act, 2013 & SEBI (LODR) Regulations, 2015, the Nomination and Remuneration Committee laid down the criteria for evaluation/ assessment of the Directors (including the Independent Directors) of the Company and the Board as a whole. The Committee also carried out the evaluation of the performance of each Director of the Company.

The Board conducted formal annual evaluation of its own performance, its Committees and the individual directors (without the presence of the director being evaluated). Basis the said evaluation, the Nomination and Remuneration Committee has evaluated the Directors and Senior Management Personnel and made recommendations for the appointment/re- appointment/ increase in remuneration of the Directors and Senior Management.

Criteria for evaluation of Board (Including Independent Directors) and its Committees.

- The evaluation of the Board (including independent directors) and its committee were based on knowledge to perform the role, attendance, time and level of participation, performance of duties, adequate discharge of responsibilities, level of oversight, understanding of the Company professional conduct, independence, structure and composition, frequency and duration of meetings, its process and procedures, effectiveness of Board/Committees, its financial reporting process, including internal controls, review of compliance under various regulations etc.
- In the opinion of the board, the independent directors fulfil the conditions specified in Securities And Exchange Board of India (Listing Obligations And Disclosure Requirements) Regulations, 2015 and are independent of the management.

INDEPENDENT AUDITOR'S REPORT

To
The Members of Mold-Tek Technologies Limited

Report on the Audit of the Standalone Financial Statements Opinion

We have audited the standalone financial statements of **Mold-Tek Technologies Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2019, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr.No.	Key Audit Matter	Auditor's Response
1	<p>Revenue Recognition (Ind AS 115, Revenue from contracts with Customers)</p> <p>The revenue standard establishes a comprehensive framework for determining whether, how much and when revenue is recognized. This involves certain key judgments relating to identification of distinct performance obligations, determination of transaction price of identified performance obligation, the appropriateness of the basis used to measure revenue recognized over a period. Refer Note No. 25 to the Standalone Financial Statements.</p>	<p>Principal Audit Procedures</p> <p>Our audit procedures on adoption of Ind AS 115, Revenue from contracts with Customers ('Ind AS 115'), which is the new revenue accounting standard, include –</p> <ul style="list-style-type: none">• Assessing the appropriateness of the Company's accounting policy on revenue recognition in line with Ind AS 115 and testing thereof.• Evaluated the design and implementation of the processes and internal controls relating in respect of revenue recognition.• Testing the effectiveness of such controls over revenue cut off at year-end.• Testing the supporting documentation for sales transactions recorded during the period closer to the year end and subsequent to the year end and• Performing analytical procedures on current year revenue based on monthly trends and where appropriate, conducting further enquiries and testing.

2	<p>Evaluation of uncertain tax positions</p> <p>The Company has material uncertain tax positions including matters under dispute which involves significant management judgment to determine the possible outcome of these disputes.</p> <p>Refer Note No. 36 to the Standalone Financial Statements.</p>	<p>Principal Audit Procedures</p> <p>Obtained details of completed tax assessments and demands for the year ended March 31, 2019 from management. We involved our internal experts to challenge the management’s underlying assumptions in estimating the tax provision and the possible outcome of the disputes. Our internal experts also considered legal precedence and other rulings in evaluating management’s position on these uncertain tax positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as at April 1, 2018 to evaluate whether any change was required to management’s position on these uncertainties.</p>

Other Information

The Company’s Board of Directors is responsible for the other information. The other information included in the annual report does not include the standalone financial statements, consolidated financial statements and our auditor’s report thereon. The other information is expected to be made available to us after the date of this auditor’s report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management’s Responsibility for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act based on our audit, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS prescribed under Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2014.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”.

(g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

(h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements (Refer Note No 36);

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. There has been no delay in transferring amounts, which were required to be transferred to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor’s Report) Order, 2016, (‘the Order’) issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in “Annexure B” a statement on the matters specified in paragraphs 3 and 4 of the Order.

(Referred to in paragraph 1(f) under ‘Report on Other Legal Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Mold-Tek Technologies Limited** (“the Company”) as of 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

This note provides a list of the significant accounting policies adopted in the preparation of the financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Statement of compliance:

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Amendment Rules, 2016 and Companies (Indian Accounting Standards) Amendment Rules, 2017, the relevant provisions of the Companies Act, 2013 ('the Act') and guidelines issued by the Securities and Exchange Board of India (SEBI), as applicable. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Financial Statements of the Company as at and for the year ended 31st March, 2019 (including comparatives) were approved and authorised for issue by the Board of Directors of the Company.

b) Basis of preparation:

The financial statements have been prepared under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values by Ind AS. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

c) Revenue recognition**i) Sale of Services**

Unbilled Revenue on incomplete service contracts are estimated based on the extent of completion.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects

to receive in exchange for those products or services.

- Revenue from fixed price development contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

ii) Other income:

Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

Export Benefit under the Duty Free Credit Entitlements is recognized in the statement of profit and loss, when right to receive such entitlement is established as per terms of the relevant scheme in respect of exports made and where there is no significant uncertainty regarding compliance with the terms and conditions of such scheme.

d) Borrowing costs

Documentation, Commitment and Service Charges are spread over the tenure of the finance facility.

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalization of such asset are included in the cost of the assets. Capitalization of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization.

Other borrowings costs are expensed in the period in which they are incurred.

e) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligations. Remeasurements as a result of the experience adjustments and changes in actuarial assumptions are recognized in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. The liability for earned leave is covered through a recognized Fund managed by Life Insurance Corporation of India and the contributions made under the scheme are charged to Statement of Profit and Loss.

(iii) Gratuity obligations

The liability or assets recognized in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market

yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss.

The gratuity liability is covered through a recognized Gratuity Fund managed by Life Insurance Corporation of India and the contributions made under the scheme are charged to Statement of Profit and Loss.

iv) Defined contribution plans

The company pays provident fund contributions to publicly administered funds as per local regulations. The Company has no further payment obligations once the contributions have been paid, the contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

v) Employee share based payments

Stock Options are granted to eligible employees in accordance with the MTTL Employee Stock Option Schemes ("MTTL ESOS"), as may be decided by the Nomination & Compensation Committee. Eligible employees for this purpose include (a) such employees of the Company including Directors and (b) such employees of the Company's subsidiary companies including Managing Director / Wholetime Director of a subsidiary. Equity-settled share-based payments to employees are measured at the fair value of the employee stock options at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is amortised over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in

the Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

f) Income taxes

Tax expense for the year comprises current and deferred tax.

Current Tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary differences arise from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Tax relating to items recognized directly in equity or other comprehensive income is recognised in equity or other comprehensive income and not in the Statement of Profit and Loss.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they are related to income taxes levied by the same tax authority, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

g) Property, plant and equipment:

“Freehold land is carried at historical cost. Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.”

Property, Plant and equipment retired from active use and held for sale are stated at the lower of their net book value and net realizable value and are disclosed separately.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Lease Hold improvements are stated at original cost including taxes, freight and other incidental expenses related to acquisition/installation and after adjustment of input taxes less accumulated depreciation in accordance with lease hold period.

h) Expenditure during construction period:

Expenditure during construction period (including finance cost related to borrowed funds for construction or acquisition of qualifying PPE) is included under Capital Work-in-Progress and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under “Other non-current Assets”.

i) Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on the straight line method over the useful lives as prescribed in Schedule II to the Act.

j) Intangible assets and amortization:

Intangible assets acquired separately are measured on initial recognition cost and are amortized on straight line method based on the estimated useful lives.

The amortized period and amortization method are reviewed at each financial year end.

Cost of Software is amortized over a period of five years.

k) Impairment of assets:

“Intangible assets and property, plant and equipment: Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying

amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.”

l) Provisions, contingent liabilities & contingent assets:

The Company recognises provisions when there is present obligation as a result of past event and it is probable that there will be an outflow of resources and reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent Liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realised.

m) Investments in subsidiary company:

Investments in subsidiary companies are measured at cost less impairment, if any.

n) Financial instruments:

Financial assets and financial liabilities are recognised

when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in case where the company has made an irrevocable selection based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case

those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in statement of profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing bank loans, overdrafts and unsecured loans are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the statement of profit and loss.

Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may or may not be realized.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized

amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

o) Earnings per share :

The basic earnings per share is computed by dividing the profit/(loss) for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, profit/(loss) for the year attributable to the equity shareholders and the weighted average number of the equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

p) Cash and cash equivalents:

Cash and cash equivalents include cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

q) Transactions in foreign currencies:

The financial statements of the Company are presented in Indian rupees (₹), which is the functional currency of the Company and the presentation currency for the financial statements.

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction.

Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

Exchange differences arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise.

r) Segment reporting - Identification of segments:

"An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments."

s) Derivatives:

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted at fair value through profit or loss and are included in profit and loss account.

t) Leases:

The Company determines whether an arrangement contains a lease by assessing whether the fulfilment of a transaction is dependent on the use of a specific asset and whether the transaction conveys the right to use that asset to the Company in return for payment. Where this occurs, the arrangement is deemed to include a lease and is accounted for either as finance or operating lease.

The Company as lessee

Operating lease – Rentals payable under operating leases are charged to the statement of profit and loss on a straight line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The Company as lessor

Operating lease – Rental income from operating leases is recognised in the statement of profit and loss on a straight line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset is diminished. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying value of the leased asset and recognised on a straight line basis over the lease term.

u) Dividend distribution:

Dividends paid (including income tax thereon) is recognised in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

v) Rounding off amounts:

All amounts disclosed in the financial statements and notes have been rounded off to the nearest thousands as per the requirement of Schedule III, unless otherwise stated.

w) Standards issued but not yet effective:

The standards issued, but not yet effective up to the date of issuance of the Company's financial statements are disclosed below.

On 30th March 2019, the Ministry of Corporate Affairs ("MCA") vide the Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective for annual periods beginning on or after 1 April, 2019:

1. The Rules have notified the new lease standard Ind AS 116, Leases. Ind AS 17, Leases has been withdrawn.

The Rules also bring in consequential amendments to other Ind AS as a result of notification of Ind AS 116. The Company is assessing the implication of the above change.

2. Appendix C to Ind AS 12, Income Taxes has been inserted. The appendix provides accounting for uncertainty over income tax treatments. The Company is assessing the implication of the above change.
3. New paragraph 57A has been added to Ind AS 12 to clarify that the income tax consequences of dividends on financial instruments classified as equity should be recognised according to where the past transactions or events that generated distributable profits were recognised. This amendment is not applicable to the Company.
4. Amendment to Ind AS 19, Employee Benefits. This amendment requires an entity to: (i) use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and (ii) recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling. This amendment will not impact the financial statements of the Company.
5. Amendment to Ind AS 23, Borrowing Costs to clarify that if a specific borrowing remains outstanding after a qualifying asset is ready for its intended use or sale, it becomes part of general borrowings. This amendment will not impact the financial statements of the Company.
6. Amendment to Ind AS 28, Investments in Associates and Joint Ventures. Investors could have long-term interests (for example, preference shares or long-term loans) in an associate or joint venture that form part of the net investment in the associate or joint venture. The amendment clarifies that these long-term interests in an associate or joint venture to which the equity method is not applied should be accounted for using Ind AS 109, Financial Instruments. The requirements of Ind AS 109 are applied to long-term interests before applying the loss allocation and impairment requirements of Ind AS 28. An illustrative example is also provided in Appendix A of Ind AS 28. This amendment is not applicable to the Company.
7. Amendment to Ind AS 109 to enable an entity to measure at amortised cost some prepayable financial assets with negative compensation. This amendment will not impact the financial statements of the Company.
8. Amendment has been made to Ind AS 103, Business Combinations and Ind AS 111, Joint Arrangements to clarify measurement of previously held interest in obtaining control/joint control over a joint operation as follows: (i) On obtaining control of a business that is a joint operation, previously held interest in joint operation is remeasured at fair value at the acquisition

date; (ii) A party obtaining joint control of a business that is joint operation should not remeasure its previously held interest in the joint operation. This amendment is not applicable to the Company.

3 Use of estimates and critical accounting judgements:

In preparation of the financial statements, the Company makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Significant judgements and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time. Revenue for Fixed price development contracts are recognized as related service are performed. Revenue for fixed price maintenance contracts is recognized on a straight line basis over the period of the contract. Revenue recognition for Fixed price development contracts are based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for Fixed price development contracts are classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

During the year ended March 31, 2019, ₹ 14,582.23 thousands of unbilled revenue pertaining to fixed price development contracts as of April 1, 2018 has been reclassified to trade receivables upon billing to customers on completion of milestones.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on fixed price maintenance contract basis and

in cases where the performance obligation is part of a contract that has an original expected duration of one year or less. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

Net changes in contract assets as at 31 March, 2019 is ₹ 9536.35 thousands.

32. Employee benefits**(i) Leave obligations**

The leave obligation covers the Company's liability for earned leave which is funded by Life Insurance Corporation of India.

(ii) Defined contribution plans

The Company has defined contribution plans namely Provident fund. Contributions are made to provident fund at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the Government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contributions plan is as follows:

Particulars	31 March, 2019	31 March, 2018
Company's Contribution to Provident Fund	15055.88	14620.64

(ii) Post- employment obligations

a) Gratuity

The Company provides for gratuity for employees as per the Payment of Gratuity Act, 1972. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The Company operates post retirement gratuity plan with Life Insurance Corporation of India. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation of leave encashment is recognised in the same manner as gratuity.

iv) Significant estimates and sensitivity Analysis					
The sensitivity of the defined benefit obligation to changes in key assumptions is:					
Particulars	Key assumptions	Defined benefit obligation			
		Increase in assumption by		Decrease in assumption by	
	31 March 2019	Rate	31 March 2019	Rate	31 March 2019
Discount rate	6.55%	1%	(1,457.43)	1%	1,602.73
Salary growth rate	7.50%	1%	1,541.92	1%	(1,448.34)
Attrition rate	3.00%	50%	(2,723.31)	50%	4,694.91

The above sensitivity analysis is based on a change in each assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

v) Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Higher than expected increases in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

33. Financial instruments and risk management**Fair values**

- The carrying amounts of trade payables, other financial liabilities (current), borrowings (current), trade receivables, cash and cash equivalents, other bank balances and loans are considered to be the same as fair value due to their short term nature.
- Borrowings (non-current) consists of loans from banks and other financial assets (non-current) consists of rent deposits where the fair value is considered based on the discounted cash flow.
- The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies and interest rate curves.

The fair value of financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximation of fair values:

*Fair value of instruments is classified in various fair value hierarchies based on the following three levels:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2019

All amounts in ₹ '000, unless otherwise stated

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques, which maximise the use of observable market data and rely as little as possible on entity specific estimates. If significant inputs required to fair value an instruments are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs are not based on observable market data, the instruments is included in level 3.

Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date. In respect of investments as at the transaction date, the Company has assessed the fair value to be the carrying value of the investments as these companies are in their initial years of operations obtaining necessary regulatory approvals to commence their business.

34. Financial risk management

The Company is exposed to market risk (fluctuation in foreign currency exchange rates, price and interest rate), liquidity risk and credit risk, which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

(A) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk, interest rate risk and price risk. Financial instruments affected by market risk include loans and borrowings, trade receivables and trade payables involving foreign currency exposure. The sensitivity analyses in the following sections relate to the position as at March 31, 2019 and March 31, 2018. The analysis exclude the impact of movements in market variables on the carrying values of financial assets and liabilities .

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2019 and 31 March 2018.

(i) Foreign currency exchange rate risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the trade/ other payables, trade/other receivables and derivative assets/liabilities. The risks primarily relate to fluctuations in US Dollar, EURO, GBP, CAD and AUD against the functional currencies of the Company. The Company's exposure to foreign currency changes for all other currencies is not material. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

The following tables demonstrate the sensitivity to a reasonably possible change in US Dollar, EURO, GBP, CAD and AUD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

(ii) Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments and from foreign forward exchange contracts:

Particulars	Increase/(decrease) in profit before tax		Increase/(decrease) in other components of equity

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. As the Company has certain debt obligations with floating interest rates, exposure to the risk of changes in market interest rates are dependent of changes in market interest rates. Management monitors the movement in interest rate and, wherever possible, reacts to material movements in such rates by restructuring its financing arrangement. As the Company has no significant interest bearing assets, the income and operating cash flows are substantially independent of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Increase/(decrease) in profit before tax		Increase/(decrease) in other components of equity	
	31 March, 2019	31 March, 2018	31 March, 2019	31 March, 2018
Change in interest rate				
increase by 100 basis points	(65.29)	(122.47)	(46.28)	(88.72)
decrease by 100 basis points	65.29	122.47	46.28	88.72

The assumed increase/decrease in interest rate for sensitivity analysis is based on the currently observable market environment

(B) Credit Risk

Financial assets of the Company include trade receivables, employee advances and bank deposits which represents Company's maximum exposure to the credit risk.

With respect to credit exposure from customers, the Company has a procedure in place aiming to minimise collection losses. Credit Control team assesses the credit quality of the customers, their financial position, past experience in payments and other relevant factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including default risk associate with the industry and country in which customers operate. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. With respect to other financial assets viz., loans & advances, deposits with government, the credit risk is insignificant since the loans & advances are given to its employees only and deposits are held with reputable banks. The credit quality of the financial assets is satisfactory, taking into account the allowance for credit losses.

Credit risk on trade receivables and other financial assets is evaluated as follows:

(i) Expected credit loss for trade receivable under simplified approach:

Particulars	31 March, 2019	31 March, 2018
Gross carrying amount	199638.36	179782.46

(iii) Significant estimates and judgements

Impairment of financial assets:

The impairment provisions for financial assets disclosed above are based on assumptions about risk of default and expected loss rates. The company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

(C) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding to meet obligations when due and to close out market positions. Company's treasury maintains flexibility in funding by maintaining availability under deposits in banks.

Management monitors cash and cash equivalents on the basis of expected cash flows.

(i) Financing arrangements:

35. Capital management**A. Capital management and Gearing Ratio**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The Company monitors capital using a gearing ratio, which is debt divided by total capital. The Company includes within debt, interest bearing loans and borrowings.

Particulars	31 March 2019	31 March 2018
Borrowings		
Current	22406.67	14328.02
Non current	87.26	3033.95
Current maturities of non- current borrowings	3038.00	5552.23
Debt	25531.93	22914.19
Equity		
Equity share capital	55692.66	54888.62
Other equity	441895.55	348889.05
Total capital	497588.20	403777.67
Gearing ratio in % (Debt/ capital)	5%	6%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2019 and 31 March 2018.

INDEPENDENT AUDITOR'S REPORT

To
The Members of Mold-Tek Technologies Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of **Mold-Tek Technologies Limited** (hereafter referred to as "the Parent") and its wholly owned subsidiary **Mold-Tek Technologies Inc., USA** (the Parent and its wholly owned subsidiary together referred to as "the Group") comprising of the Consolidated Balance Sheet as at 31st March, 2019, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act"), in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Group as at March 31, 2019, and its consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Revenue Recognition (Ind AS 115, Revenue from contracts with Customers)</p> <p>The revenue standard establishes a comprehensive framework for determining whether, how much and when revenue is recognized by the Group. This involves certain key judgments relating to identification of distinct performance obligations, determination of transaction price of identified performance obligation, the appropriateness of the basis used to measure revenue recognized over a period. We involved our internal experts to challenge the management's underlying assumptions in estimating the tax provision and the possible outcome of the disputes. Our internal experts also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions. Additionally, we considered the effect of new information in respect of uncertain tax positions as at April 1, 2018 to evaluate whether any change was required to management's position on these uncertainties.</p>

Other Information

The Parent's Board of Directors is responsible for the other information. The other information included in the annual report does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the parent, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law relating to the preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of the preparation of the consolidated financial statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with Rule 7 of Companies (Accounts) Rules, 2014.

- (e) On the basis of the written representations received from the directors of the Parent as on 31st March, 2019 taken on record by the Board of Directors of the Parent, none of the directors of the Parent is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Parent and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Parent to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Group has disclosed the impact of pending litigations on its financial position in its consolidated financial statements (Refer note 36);
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts which were required to be transferred to the Investor Education and Protection Fund by the Parent.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Mold-Tek Technologies Limited** (“the Parent”) as of 31 March 2019 in conjunction with our audit of the consolidated financial statements of the Parent for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Parent’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Parent considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Parent’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Parent’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Parent’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Parent has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Parent considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2019

All amounts in ₹ '000, unless otherwise stated

1 Group information:

Mold-Tek Technologies Limited ('the parent') is a public limited company incorporated in India having its registered office at Hyderabad, Telangana, India. The group is engaged in providing Civil & Mechanical Engineering Services. Mold-Tek Technologies Inc. is the wholly owned subsidiary incorporated in USA (The parent and its subsidiary together referred to as Group).

2 Significant accounting policies:

This note provides a list of the significant accounting policies adopted in the preparation of the financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Statement of compliance:

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Amendment Rules, 2016 and Companies (Indian Accounting Standards) Amendment Rules, 2017, the relevant provisions of the Companies Act, 2013 ('the Act') and guidelines issued by the Securities and Exchange Board of India (SEBI), as applicable. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Financial Statements of the Group as at and for the year ended 31st March, 2019 (including comparatives) were approved and authorised for issue by the Board of Directors of the Parent Company.

b) Basis of preparation:

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. The financial statements have been prepared under the historical cost convention with the exception of certain assets and liabilities that are required to be carried at fair values as per Ind AS. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction

between market participants at the measurement date.

c) Revenue Recognition

i) Sale of Services

Revenue is recognised upon transfer of control of services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services.

- Revenue from fixed price development contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognised based on time elapsed mode.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

ii) Other income:

Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

Export Benefit under the Duty Free Credit Entitlements is recognized in the statement of profit and loss, when right to receive such entitlement is established as per terms of the relevant scheme in respect of exports made and where there is no significant uncertainty regarding compliance with the terms and conditions of such scheme.

d) Borrowing costs

Documentation, Commitment and Service Charges are spread over the tenure of the finance facility.

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining

to the period from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalization of such asset are included in the cost of the assets. Capitalization of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization.

Other borrowings costs are expensed in the period in which they are incurred.

e) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligations. Remeasurements as a result of the experience adjustments and changes in actuarial assumptions are recognized in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur. The liability for earned leave is covered through a recognized Fund managed by Life Insurance Corporation of India and the contributions made under the scheme are charged to Statement of Profit and Loss.

(iii) Gratuity obligations

The liability or assets recognized in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income.

They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss.

The gratuity liability is covered through a recognized Gratuity Fund managed by Life Insurance Corporation of India and the contributions made under the scheme are charged to Statement of Profit and Loss.

iv) Defined contribution plans

The Group pays provident fund contributions to publicly administered funds as per local regulations. The group has no further payment obligations once the contributions have been paid, the contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

v) Employee share based payments

Stock Options are granted to eligible employees in accordance with the MTTL Employee Stock Option Schemes ("MTTL ESOS"), as may be decided by the Nomination & Compensation Committee. Eligible

employees for this purpose include (a) such employees of the Group including Directors and (b) such employees of the Group's subsidiary companies including Managing Director / Wholetime Director of a subsidiary. Equity-settled share-based payments to employees are measured at the fair value of the employee stock options at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is amortised over the vesting period, based on the group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the Statement of Profit and Loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

f) Income taxes

Tax expense for the year comprises current and deferred tax.

Current Tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961 and other applicable tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary differences arise from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Tax relating to items recognized directly in equity or other comprehensive income is recognised in equity or other comprehensive income and not in the Statement of Profit and Loss.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they are related to income taxes levied by the same tax authority, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

g) Property, plant and equipment:

Freehold land is carried at historical cost. Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Property, Plant and equipment retired from active use and held for sale are stated at the lower of their net book value and net realizable value and are disclosed separately.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Lease Hold improvements are stated at original cost including taxes, freight and other incidental expenses related to acquisition/installation and after adjustment of input taxes less accumulated depreciation in accordance with lease hold period.

h) Expenditure during construction period:

Expenditure during construction period (including finance cost related to borrowed funds for construction or acquisition of qualifying PPE)

is included under Capital Work-in-Progress and the same is allocated to the respective PPE on the completion of their construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

i) Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on the straight line method over the useful lives as prescribed in Schedule II to the Act.

j) Intangible assets and amortization:

Intangible assets acquired separately are measured on initial recognition cost and are amortized on straight line method based on the estimated useful lives.

The amortized period and amortization method are reviewed at each financial year end.

Cost of Software is amortized over a period of five years.

k) Impairment of assets:

Intangible assets and property, plant and equipment: Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

l) Provisions, contingent liabilities & contingent assets:

The Group recognises provisions when there is present obligation as a result of past event and it is

probable that there will be an outflow of resources and reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent Liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group.

Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realised.

m) Financial instruments:

Financial assets and financial liabilities are recognised when the group becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in case where the Group has made an irrevocable selection based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

- (iv) The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in statement of profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its

liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant

Interest bearing bank loans, overdrafts and unsecured loans are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the statement of profit and loss.

Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

Fair value of financial instruments

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may or may not be realized.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

n) Earnings per share :

The basic earnings per share is computed by dividing the profit/(loss) for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, profit/(loss) for the year attributable to the equity shareholders and the weighted average number of the equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

o) Cash and cash equivalents:

Cash and cash equivalents include cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

p) Transactions in foreign currencies:

The financial statements of the Group are presented in Indian rupees (₹), which is the functional currency of the group and the presentation currency for the financial statements.

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction.

Foreign currency monetary assets and liabilities such as cash, receivables, payables, etc., are translated at year end exchange rates.

Exchange differences arising on settlement of transactions and translation of monetary items are recognised as income or expense in the year in which they arise.

q) Segment reporting - Identification of segments:

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the group's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the group's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

r) Derivatives:

The Group enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted at fair value through profit or loss and are included in profit and loss account.

s) Leases:

The Group determines whether an arrangement contains a lease by assessing whether the fulfilment of a transaction is dependent on the use of a specific asset and whether the transaction conveys the right to use that asset to the group in return for payment. Where this occurs, the arrangement is deemed to include a lease and is accounted for either as finance or operating lease.

The Group as lessee

Operating lease – Rentals payable under operating leases are charged to the statement of profit and loss on a straight line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The Group as lessor

Operating lease – Rental income from operating leases is recognised in the statement of profit and loss on a straight line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset is diminished. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying value of the leased asset and recognised on a straight line basis over the lease term.

t) Dividend distribution:

Dividends paid (including income tax thereon) is recognised in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

u) Rounding off amounts:

All amounts disclosed in the financial statements and notes have been rounded off to the nearest thousands as per the requirement of Schedule III, unless otherwise stated.

v) Standards issued but not yet effective:

The standards issued, but not yet effective up to the date of issuance of the Group's financial statements are disclosed below.

On 30th March 2019, the Ministry of Corporate Affairs ("MCA") vide the Companies (Indian Accounting Standards) Amendment Rules, 2019 has notified the following new and amendments to Ind ASs which the Group has not applied as they are effective for annual periods beginning on or after 1 April, 2019:

1. The Rules have notified the new lease standard Ind AS 116, Leases. Ind AS 17, Leases has been withdrawn. The Rules also bring in consequential amendments to other Ind AS as a result of notification of Ind AS 116. The Group is assessing the implication of the above change.
 2. Appendix C to Ind AS 12, Income Taxes has been inserted. The appendix provides accounting for uncertainty over income tax treatments. The Group is assessing the implication of the above change.
 3. New paragraph 57A has been added to Ind AS 12 to clarify that the income tax consequences of dividends on financial instruments classified as equity should be recognised according to where the past transactions or events that generated distributable profits were recognised. This amendment is not applicable to the Group.
 4. Amendment to Ind AS 19, Employee Benefits. This amendment requires an entity to: (i) use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and (ii) recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling. This amendment will not impact the financial statements of the Group.
 5. Amendment to Ind AS 23, Borrowing Costs to clarify that if a specific borrowing remains outstanding after a qualifying asset is ready for its intended use or sale, it becomes part of general borrowings. This amendment will not impact the financial statements of the Group.
 6. Amendment to Ind AS 28, Investments in Associates and Joint Ventures. Investors could have long-term interests (for example, preference shares or long-term loans) in an associate or joint venture that form part of the net investment in the associate or joint venture. The amendment clarifies that these long-term interests in an associate or joint venture to which the equity method is not applied should be accounted for using Ind AS 109, Financial Instruments. The requirements of Ind AS 109 are applied to long-term interests before applying the loss allocation and impairment requirements of Ind AS 28. An illustrative example is also provided in Appendix A of Ind AS 28. This amendment is not applicable to the Group.
 7. Amendment to Ind AS 109 to enable an entity to measure at amortised cost some prepayable financial assets with negative compensation. This amendment will not impact the financial statements of the Group.
 8. Amendment has been made to Ind AS 103, Business Combinations and Ind AS 111, Joint Arrangements to clarify measurement of previously held interest in obtaining control/joint control over a joint operation as follows: (i) On obtaining control of a business that is a joint operation, previously held interest in joint operation is remeasured at fair value at the acquisition date; (ii) A party obtaining joint control of a business that is joint operation should not remeasure its previously held interest in the joint operation. This amendment is not applicable to the Group.
- 3 Use of estimates and critical accounting judgements:**
- In preparation of the financial statements, the Group makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected. Significant judgements and estimates relating to the carrying values of assets and liabilities include useful lives of property, plant and equipment and intangible assets, impairment of property, plant and equipment, intangible assets and investments, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies.

Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers for the year ended 31 March, 2019 by offerings and contract-type. The Group believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of the revenues and cash flows are affected by industry, market and other economic factors.

Particulars	Year Ended 31 March, 2019
Revenue by contracts	
Fixed price maintenance contract	78131.31
Fixed price development contract	764533.60
Revenue by Geography	
USA	741717.73
India	7534.87
Others	93412.31

Trade receivables and Contract Balances

The Group classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time. Revenue for fixed price maintenance contracts is recognized on the basis of time elapsed. Revenue recognition for Fixed price development contracts are based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for Fixed price development contracts are classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

During the year ended March 31, 2019, ₹ 14,582.23 thousands of unbilled revenue pertaining to fixed price development contracts as of April 1, 2018 has been reclassified to trade receivables upon billing to customers on completion of milestones.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on fixed price maintenance contract basis and in cases where the performance obligation is part of a contract that has an original expected duration of one year or less. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

Net changes in contract assets as at 31 March, 2019 is ₹ 9536.35 thousands.

32. Employee benefits**(i) Leave obligations**

The leave obligation covers the group's liability for earned leave which is funded by Life Insurance Corporation of India.

(ii) Defined contribution plans

The group has defined contribution plans namely Provident fund. Contributions are made to provident fund at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the Government. The obligation of the group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contributions plan is as follows:

Particulars	31 March, 2019	31 March, 2018
Group's Contribution to Provident Fund	15055.88	14620.64

(ii) Post- employment obligations**a) Gratuity**

The group provides for gratuity for employees as per the Payment of Gratuity Act, 1972. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The group operates post retirement gratuity plan with Life Insurance Corporation of India. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation of leave encashment is recognised in the same manner as gratuity.

iv) Significant estimates and sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in key assumptions is:

Particulars	Key assumptions	Defined benefit obligation			
		Increase in assumption by		Decrease in assumption by	
	31 March 2019	Rate	31 March 2019	Rate	31 March 2019
Discount rate	6.55%	1%	(1,457.43)	1%	1,602.73
Salary growth rate	7.50%	1%	1,541.92	1%	(1,448.34)
Attrition rate	3.00%	50%	(2,723.31)	50%	4,694.91

iv) Significant estimates and sensitivity Analysis

The above sensitivity analysis is based on a change in each assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

v) Risk exposure

Through its defined benefit plans, the group is exposed to a number of risks, the most significant of which are detailed below:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Higher than expected increases in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

33. Financial instruments and risk management**Fair values**

1. The carrying amounts of trade payables, other financial liabilities (current), borrowings (current), trade receivables, cash and cash equivalents, other bank balances and loans are considered to be the same as fair value due to their short term nature.
2. Borrowings (non-current) consists of loans from banks , other financial assets consists of rent deposits where the fair value is considered based on the discounted cash flow.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2019

All amounts in ₹ '000, unless otherwise stated

3. The fair value of forward foreign exchange contracts is calculated as the present value determined using forward exchange rates, currency basis spreads between the respective currencies and interest rate curves.

The fair value of financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Set out below, is a comparison by class of the carrying amounts and fair value of the group's financial instruments, other than those with carrying amounts that are reasonable approximation of fair values:

*Fair value of instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques, which maximise the use of observable market data and rely as little as possible on entity specific estimates. If significant inputs required to fair value an instruments are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs are not based on observable market data, the instruments is included in level 3.

Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the group could have realized or paid in sale transactions as of respective dates. As such, the fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date. In respect of investments as at the transaction date, the group has assessed the fair value to be the carrying value of the investments as these companies are in their initial years of operations obtaining necessary regulatory approvals to commence their business.

34. Financial risk management

The group is exposed to market risk (fluctuation in foreign currency exchange rates, price and interest rate), liquidity risk and credit risk, which may adversely impact the fair value of its financial instruments. The group assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the group.

(A) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk, interest rate risk and price risk. Financial instruments affected by market risk include loans and borrowings, trade receivables and trade payables involving foreign currency exposure. The sensitivity analyses in the following sections relate to the position as at March 31, 2019 and March 31, 2018.

The analysis exclude the impact of movements in market variables on the carrying values of financial assets and liabilities .

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2019 and 31 March 2018.

(i) Foreign currency exchange rate risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The group's exposure to the risk of changes in foreign exchange rates relates primarily to the trade/ other payables, trade/other receivables and derivative assets/liabilities. The risks primarily relate to fluctuations in US Dollar, EURO, CAD, GBP against the functional currencies of the group. The group's exposure to foreign currency changes for all other currencies is not material. The group evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

The following tables demonstrate the sensitivity to a reasonably possible change in US Dollar, EURO, CAD, GBP exchange rates, with all other variables held constant. The impact on the group's profit before tax is due to changes in the fair value of monetary assets and liabilities.

1% decrease	5.36	-	3.80	-

The movement in the pre-tax effect is a result of a change in the fair value of monetary assets and liabilities denominated in US Dollar, EURO, AUD, GBP,CAD where the functional currency of the entity is a currency other than US Dollar, EURO, AUD, GBP, CAD

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The group's exposure to the risk of changes in market interest rates relates primarily to the group's debt obligations with floating interest rates. As the group has certain debt obligations with floating interest rates, exposure to the risk of changes in market interest rates are dependent of changes in market interest rates. Management monitors the movement in interest rate and, wherever possible, reacts to material movements in such rates by restructuring its financing arrangement.

As the group has no significant interest bearing assets, the income and operating cash flows are substantially independent of changes in market interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Increase/(decrease) in profit before tax		Increase/(decrease) in other components of equity	
	31 March, 2019	31 March, 2018	31 March, 2019	31 March, 2018
Change in interest rate				
increase by 100 basis points	(65.29)	(122.47)	(46.28)	(88.72)
decrease by 100 basis points	65.29	122.47	46.28	88.72

The assumed increase/decrease in interest rate for sensitivity analysis is based on the currently observable market environment

(B) Credit Risk

Financial assets of the Company include trade receivables, employee advances and bank deposits which represents Company's maximum exposure to the credit risk.

With respect to credit exposure from customers, the Company has a procedure in place aiming to minimise collection losses. Credit Control team assesses the credit quality of the customers, their financial position, past experience in payments and other relevant factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including default risk associate with the industry and country in which customers operate. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. With respect to other financial assets viz., loans & advances, deposits with government, the credit risk is insignificant since the loans & advances are given to its employees only and deposits are held with reputable banks. The credit quality of the financial assets is satisfactory, taking into account the allowance for credit losses.

(iii) Significant estimates and judgements

Impairment of financial assets:

The impairment provisions for financial assets disclosed above are based on assumptions about risk of default and expected loss rates. The group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

(C) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding to meet obligations when due and to close out market positions. group's treasury maintains flexibility in funding by maintaining availability under deposits in banks.

35. Capital management**A. Capital management and Gearing Ratio**

For the purpose of the group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the group's capital management is to maximise the shareholder value.

The group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The group monitors capital using a gearing ratio, which is debt divided by total capital. The group includes within debt, interest bearing loans and borrowings.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2019

All amounts in ₹ '000, unless otherwise stated

In order to achieve this overall objective, the group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2019 and 31 March 2018.
