Prospects of IT division seems to be improving. While last year profits were dipped due to losses in IT Division, we hope to cross the Break Even Point (BEP) in IT Division operations also in the current Financial year with fixed long term client contracts.

Planning & QA/QC:

To handle number of big size projects in an effective way, we are now more focussed on planning and production controls with some effective and user-friendly tools.

New performance bonus and measurable KRA's are set at all levels of employees to ensure better efficiencies and recognition of talented resources.

Strong QA systems and SOP's have been drawn and implemented for QA/QC process to make sure the quality output is delivered to the clients. This is already generating stronger client preference for Mold-Tek Engineering Services and resulting in repeat orders from many established fabricators and General Contractors (GCs) of North America.
